

Apprentice Showcase 2021

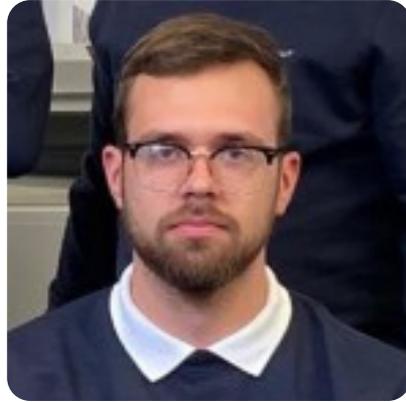

The

future

looks

bright!

Why did you apply for the Apprenticeship?

"I've done A-Levels for 3 years and attended university, but dropped out after a few months. This is because I have realised the exam-oriented way of learning is not suitable for me and I struggle to make the theory of what is learnt in traditional "lessons", apply to real life. I decided an apprenticeship was better suited for me as it meant I can have hands-on experience in a professional environment as well as still learning. This particular apprenticeship appealed to me as it aligned with my interests and seemed like it was a place where I can grow."

What one piece of advice would you give someone thinking of applying for an Apprenticeship?

"It's a great way to earn whilst learning and gaining qualification, although be prepared to put in the effort!"

What is your favourite thing about being an Apprentice?

"The experience and knowledge gained from other professionals in the industry that will help to further my career, all whilst gaining a professional qualification."
