*Education Brochure*

*Sign In, Secure & Safeguard*

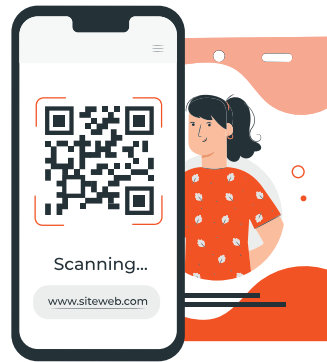

# EntrySign: *Smarter Sign-In, Stronger Security*

EntrySign is a professional, intuitive, and flexible sign-in and entry management system, designed to adapt to your school or college's needs. From staff, student and visitor sign-in to contractor tracking, *EntrySign helps you secure and safeguard your people and premises with ease.*

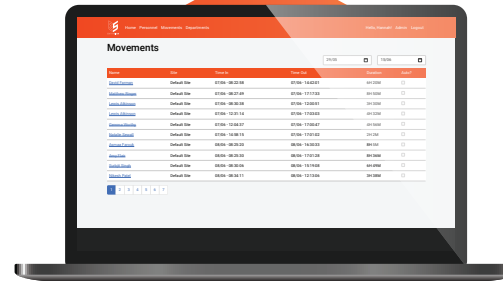

**Trusted by thousands worldwide.**

EntrySign simplifies sign in and strengthens site safeguarding.

**Sign in with contactless options.**

Smartphones, QR codes, ID cards or fobs.

**Utilise the Back Office Suite.**

Manage people, documents and data with ease.

Kiosks are available in black, or white. Bespoke colour options available upon request.

# Why Choose *EntrySign*

## Enhanced Security & Safety

**Know exactly who's on-site at any time to support safeguarding and emergency planning.** Instantly access evacuation reports, view historical data, and track DBS status. Quickly search by name, company, vehicle, or DBS to maintain a safe and secure environment.

## Boosted Efficiency

**Streamline admin with a professional, self-service sign-in.** Automatically notify staff of visitor arrivals, log student lates and movements, and write marks directly to your MIS, freeing up time for your team.

## Professional First Impression

Give every visitor a smart, consistent welcome. EntrySign promotes your school or trust's identity from pre-booking through to reception, reinforcing a modern and professional image.

## Support for Compliance

Easily share and log policies or documents, track key dates (e.g. contractor records), and manage data retention automatically. *EntrySign helps schools meet GDPR and safeguarding obligations with ease.*

# Styled to suit *your business*

We're proud to have our own *in-house design team*, creating custom EntrySign screens that reflect your school's identity and make a great first impression. Kiosks can also be finished in your school colours and feature your logo, offering a seamless and professional welcome for visitors, staff, and students.

## ID Card Designs

We also provide *professionally designed, personalised ID cards* to accompany your EntrySign system.

These ID cards create a consistent, look across your school while helping to streamline access and enhance safeguarding.

# MIS *Integrations*

EntrySign integrates with leading MIS (Management Information Systems) platforms used in schools, colleges, and trusts. By connecting directly with your MIS, EntrySign automatically syncs student, staff, and attendance data, reducing manual admin, improving accuracy, and supporting safeguarding.

## Automatic Data Sync

Keeps staff and student records up to date without manual input.

## Late Sign-ins

Records late arrivals and automatically writes back to your MIS, including minutes late.

## Quick Safeguarding

Provides accurate real-time visibility of who is on-site, supporting fire drills and evacuations.

## Improved Efficiency

Reduces time spent on admin tasks so staff can focus on what matters most.

Proud to **Integrate with:**

**SIMS**

**Arbor**

**Bromcom**

**Integris™**

**ScholarPack**  
Cloud based MIS for Primary Schools

# Door Access Control *Integrations*

Connect EntrySign to your school's existing door access control systems to streamline daily operations and enhance site security. **Compatible with leading platforms like Paxton, Comelit PAC, and ACT**, staff and students can use the same ID cards or fobs for both sign-in and door access.

With automatic data sync and real-time sign-in/out tracking from access readers, schools benefit from reduced admin, greater oversight, and improved safeguarding, all while minimising disruption and duplication.

- Use existing RFID cards/fobs
- Automate doors, turnstiles, and speed lanes
- Real-time data synchronisation
- Reduce manual admin and improve site security
- Direct integrations with Paxton and Comelit PAC

Proud to

- Screen visitors before they reach reception
- Smooth arrivals with easy pre-booking via EntrySign
- Real-time visibility of expected visitors
- Frontline security can approve or deny access
- Helps manage parking, and resource allocation
- Enhances security and delivers a sleek welcome

# Case Study: *RA&A School*

After recommendations, The Royal Alexandra and Albert School explored EntrySign as a secure, efficient alternative to their existing system, aiming to enhance safeguarding across their large site while reducing admin.

## The Solution?

To enhance safeguarding and site security, the school installed four EntrySign systems, tailored to suit their spaces. They've since expanded with a kiosk and EntryScan Nano at their sixth-form site, making it easier to monitor movement and access accurate attendance data.

**“Improved  
safeguarding  
across *our*  
*entire site*”**

The implementation of EntrySign at the Royal Alexandra and Albert School **has been a resounding success**. It has enhanced our security, improved administrative efficiency, and provided valuable data insights, all while being user-friendly and environmentally conscious.

**We highly recommend EntrySign to any educational institution seeking a comprehensive and reliable visitor management solution.**

- Gareth Evans, Head of IT Services
