

## Secure, Standardise & Simplify:

Your ultimate 365 tenant management solution!

### What is *inFORCER*?

*inFORCER* is a comprehensive Microsoft 365 security management solution designed to ensure the safety and compliance of your customer's data.

The service is divided into four key areas:

- Policy Standardisation**
- Automated Deployment**
- Backup and Restore**
- Compliance Reporting**

### Service areas

#### **Policy Standardisation**

Streamline Microsoft 365 security for uniform, industry-aligned protection

#### **Automated Deployment**

Automate security policy deployment for consistent, efficient configuration

#### **Backup & Restore**

Ensures fast recovery of Microsoft 365 security configurations

#### **Compliance Reporting**

Monitor compliance and security posture with actionable reporting

### What are the benefits of *inFORCER*?

#### **Enhanced Data Security**

Regular security policy updates protect your data from unauthorised access. All security settings are immutable to protect against malicious or accidental changes.

#### **Customisable Retention Policies**

Allows you to set customizable security policy retention policies to meet your specific business needs and compliance requirements.

#### **Scalable Storage Management**

Offers scalable security management options that can grow with your business, ensuring that you always have enough resources for your security needs.

#### **Automated Security Management**

The service offers automated security policy deployment, ensuring that your security settings are updated regularly without manual intervention.

#### **Data Integrity**

Advanced data integrity checks are performed to ensure that the security configurations are accurate and uncorrupted.

#### **Disaster Recovery**

Provides a robust disaster recovery solution, allowing you to quickly restore your security settings in the event of a catastrophic failure.

#### **Quick Recovery**

Ensures that security configurations can be restored quickly, minimising downtime and disruption.

#### **Cost-Effective**

Provides a cost-effective solution for security management with transparent pricing.

#### **Encryption**

Ensures that your data is encrypted both in transit and at rest, providing an additional layer of security.

#### **Cost Savings**

Reduces the need for expensive on-premises security infrastructure, leading to significant cost savings.

### Let's talk...

inTEC brings proven expertise, backed by industry-leading accreditations.
