

Cyber Security

inTRUST your Cyber Security with inTEC

What is *inTRUST*?

inTRUST delivers real-time security and compliance monitoring — going beyond “snapshot” scans.

It continuously tracks vulnerabilities, rogue devices, and threats, giving you a live view of your security posture.

What are the key features of *inTRUST*?

- ✓ Centralised monitoring of your IT environment
- ✓ Fast detection of suspicious activity
- ✓ Intelligent log management & threat correlation
- ✓ Actionable alerts to speed incident response
- ✓ Continuous scanning of IT assets
- ✓ Prioritised risk assessment for remediation
- ✓ Alignment with CE+, CIS & NIST standards
- ✓ Demonstrable commitment to cyber security

What are the benefits of *inTRUST*?

Vulnerability Detection

Identify and prioritise weaknesses on endpoints, meeting compliance while reducing risk.

Endpoint Detection & Response (EDR)

Continuous monitoring and behavioural analysis to stop advanced threats.

Regulatory Compliance

Simplify CE+, PCI DSS, GDPR and other frameworks with built-in tracking.

Alerting & Notification

Customisable alerts, dashboards and reports to accelerate threat response.

| InTRUST PACKAGES | BASIC £1.00/mo/device | STANDARD £3.00/mo/device | PREMIUM £7.50/mo/device | VULNERABILITY APPLIANCE £25/mo/per site |
